

# LRQA Independent Assurance Statement

## Relating to Empresa Nacional de Energía ENEX S.A.'s GHG Report for the calendar year 2025

### Terms of Engagement

This Assurance Statement has been prepared for Empresa Nacional de Energía ENEX S.A.

LRQA was commissioned by Empresa Nacional de Energía ENEX S.A. (ENEX) to assure its GHG Report for the calendar year 2025, (hereafter referred to as “the Report”).

The Report relates to direct GHG emissions, indirect GHG emissions from imported energy, indirect GHG emissions from transportation, indirect GHG emissions from products used by organization and indirect GHG emissions associated with the use of products from the organization.

ENEX's geographical boundary includes its head office operations located at Santiago, Chile and other sites located in Chile, the United States of America and Paraguay, as detailed in Annex A. The main activities of the organization include the distribution and commercialization of fuels, lubricants and other products derived from petroleum and the GHG emissions have been consolidated using an operational control approach.

The following GHG emissions were excluded from the Report because they were not materially significant less than 5% of total GHG emissions):

- In Chile, direct emissions from stationary sources due to the use of electrical generators, fugitive emissions from air conditioning equipment, indirect emissions from outsourced lubricant transport, indirect emissions from passenger transport in mining, and indirect emissions from transportation and final disposal of household waste in the Corporate Building;
- In Paraguay, direct emissions from stationary sources due to the use of electrical generators and fugitive emissions from air conditioning equipment; and
- In the United States, indirect emissions from air transport from commercial flights and fugitive emissions from air conditioning equipment.

### Management Responsibility

ENEX's management was responsible for preparing the claim, Report, for conformity with ISO 14064-1:2018 and for maintaining effective internal controls over the data and information disclosed. LRQA's responsibility was to carry out an assurance engagement on the Report in accordance with our contract with ENEX.

Ultimately, the Report has been approved by, and remains the responsibility of ENEX.

### LRQA's Approach

Our verification has been conducted in accordance with ISO 14064-3:2019, '*Specification with guidance for verification and validation of greenhouse gas statements*' to provide limited assurance that GHG data as presented in the Report have been prepared in conformance with ISO 14064-1:2018, '*Specification with guidance at the organizational level for quantification and reporting of greenhouse gas emissions and removals*'.

To form our conclusions the assurance engagement was undertaken as a sampling exercise and covered the following activities:

- remotely interviewed relevant staff of the organization responsible for managing GHG emissions data and records;
- remotely reviewed activity data at summarised source data; and
- verified historical GHG emissions data and records at an aggregated level for the calendar year 2025.

### **Level of Assurance & Materiality**

In accordance with our contract agreement, the assurance was conducted at a limited level of assurance at a materiality of 5% for Categories 1, 2, 3, 4 and 5. The opinion expressed in this Assurance Statement has been accordingly formed.

### **LRQA's Opinion**

Based on LRQA's approach nothing has come to our attention that would cause us to believe that the direct GHG emissions and indirect GHG emissions disclosed in the Report as summarized in Tables 1-4 below are not materially correct and that the Report has not been prepared in conformance with ISO 14064-1:2018.

### **LRQA's Recommendations**

ENEX should consider the following scope for improvement to improve its next inventories.

- Improve the methodology for maintaining calibration records of fuel dispensing meters at gas stations.
- Improve the process for collecting and recording electricity consumption bills at stores in the USA.

Dated: 26 March 2026

A handwritten signature in black ink that reads 'Zahler'.

Indirect GHG emissions associated with the use of products from the organization (Category 5)	178 776
Biogenic indirect GHG emissions associated with the use of products from the organization (Category 5)	32 664
*Location based and Market based are terminologies from Annex E of ISO 14064-1:2018. Only location-based information is reported.	

## Annex A - List of ENEX Sites Operational During 2025

### Chile

- Corporate building Enex, Inversiones Enex y ESM: Dirección: Av. Del Cóndor 520, Huechuraba, Región Metropolitana, Chile
- Plants and Warehouses:
  - Maipú Plant, Camino a Melipilla 11820, Maipú, Santiago, Chile
  - Greda Alta Plant, Los Alerces S/N, Puchuncaví, Chile
  - San Fernando Plant, Los Aromos S/N, San Fernando, Chile
  - San Vicente Plant, Av. La Marina 155, Talcahuano, Chile
  - Lautaro Plant, Ruta 5 Sur Km 652, Lautaro, Chile
  - Ex Antofagasta Plant, Iquique 6000, Antofagasta, Chile
  - Antofagasta Warehouse, Iquique 5995, Antofagasta, Chile
- Aviation Bases:
  - Pudahuel Aviation, Av. Aviador David Fuentes 2121, Pudahuel, Chile
  - Calama Aviation, Ruta B-189 S/N, Calama, Chile
  - Punta Arenas Aviation, Ruta Y-520 S/N, Punta Arenas, Chile
- Service Stations:

This Assurance Statement is subject to the provisions of this legal section:

LRQA Group Limited, its affiliates and subsidiaries, and their respective officers, employees or agents are, individually and collectively, referred to in this clause as 'LRQA'. LRQA assumes no responsibility and shall not be liable to any person for any loss, damage or expense caused by reliance on the information or advice in this document or howsoever provided, unless that person has signed a contract with the relevant LRQA entity for the provision of this information or advice and in that case any responsibility or liability is exclusively on the terms and conditions set out in that contract.

The English version of this Assurance Statement is the only valid version. LRQA assumes no responsibility for versions translated into other languages.

This Assurance Statement is only valid when published with the Report to which it refers. It may only be reproduced in its entirety.
